

Exclusion Screening LLC is a healthcare risk-mitigation company offering healthcare providers a simple, automated, and burden-free solution for their Federal and State exclusion screening obligations. We understand the risks associated with excluded individuals and entities and approach exclusion screening from a regulatory compliance and risk management perspective

SAFER **Exclusion and Sanction Screening Services**

5 Key Things You Need to Know:

1. An OIG Exclusion is a final administrative action by the Health and Human Services Office of Inspector General (HHS/OIG) barring an individual/entity from any participation in federal health care programs because they pose a risk to patient safety and/or financial fraud
2. Neither Medicare nor Medicaid will pay for any item or service that has been provided by an excluded person or entity
3. The OIG requires that providers ensure that none of their employees, vendors, contractors, or even volunteers are on the List of Excluded Individuals or Entities (LEIE)
4. The OIG can impose Civil Money Penalties (CMPs) on any provider that has an excluded employee, vendor, or contractor unless the provider can prove that it has screened as required
5. Excluded individuals or entities increase risk in almost every aspect of your commitment to patient safety and your financial integrity

What We Do:

- We search against all Federal and State exclusion lists
- We automate monthly screening and reporting
- We use advanced analytics and SAFER Risk Index
- We perform complete screening & thorough verification
- We also offer other sanction screening services
- We provide unlimited user logins for new-hire screening
- We offer self-service and premium full-service plans

How We Do It:

- Our proprietary SAFER™ system includes the OIG-LEIE, GSA-SAM and all available state exclusion lists
- SAFER™ is updated daily with the most current exclusion information and features a comprehensive search mechanism that is broader than that of the LEIE or SAM to ensure that we don't miss a potential match
- Our cloud based SaaS is available 24x7x365 with 7 years of historical reports
- We ensure that your data is confidential, secure, and handled with the utmost care

- Specialized in exclusion screening services since 2014
- Trained screening professionals based in USA
